##### Scope of the Investigation

The merchandise covered by this investigation is 2,4-dichlorophenoxyacetic acid (2,4-D) and its derivative products, including salt and ester forms of 2,4-D. 2,4-D has the Chemical Abstracts Service (CAS) registry number of 94–75–7 and the chemical formula  $C_8H_6Cl_2O_3$ .

Salt and ester forms of 2,4-D include 2,4-D sodium salt (CAS 2702–72–9), 2,4-D diethanolamine salt (CAS 5742–19–8), 2,4-D dimethyl amine salt (CAS 2008–39–1), 2,4-D isopropylamine salt (CAS 5742–17–6), 2,4-D tri-isopropanolamine salt (CAS 3234180–3), 2,4-D choline salt (CAS 1048373–72–3), 2,4-D butoxyethyl ester (CAS 1929–733), 2,4-D 2-ethylhexylester (CAS 1928–43–4), and 2,4-D isopropylester (CAS 94–11–1). All 2,4-D, as well as the salt and ester forms of 2,4-D, is covered by the scope irrespective of purity, particle size, or physical form.

The conversion of a 2,4-D salt or ester from 2,4-D acid, or the formulation of nonsubject merchandise with the subject 2,4-D, its salts, and its esters in the country of manufacture or in a third country does not remove the subject 2,4-D, its salts, or its esters from the scope. For any such formulations, only the 2,4-D, 2,4-D salt, and 2,4-D ester components of the mixture is covered by the scope of the investigation. Formulations of 2,4-D are products that are registered for end-use applications with the Environmental Protection Agency and contain a dispersion agent.

The country of origin of any 2,4-D derivative salt or ester is determined by the country in which the underlying 2,4-D acid is produced. 2,4-D, its salts, and its esters are classified under Harmonized Tariff Schedule of the United States (HTSUS) subheading 2918.99.2010. Subject merchandise, including the abovementioned formulations, may also be classified under HTSUS subheadings 2922.12.0001, 2921.11.0000, 2921.19.6195, 2922.19.9690, 3808.93.0500, and 3808.93.1500. The HTSUS subheadings and CAS registry numbers are provided for convenience and customs purposes. The written description of the scope of the investigation is dispositive.

DEPARTMENT OF ENERGY

Request for Information on Artificial Intelligence Infrastructure on DOE Lands

**AGENCY:** Office of Policy, Department of Energy.  
**ACTION:** Request for information (RFI).

**SUMMARY:** The United States has long been at the forefront of artificial intelligence (AI) innovation. Maintaining that leadership is a key national and economic security priority. AI infrastructure including data centers is a critical component of the modern economy, enabling AI training and inference, scientific research, and a wide range of other essential services. The U.S. Department of Energy (DOE) is exploring opportunities to leverage its land assets to support the growing demand for AI infrastructure. This aligns with the policy laid out in the executive order signed January 23, 2025, titled “Removing Barriers to American Leadership in Artificial Intelligence,” to sustain and enhance America’s global AI dominance in order to promote human flourishing, economic competitiveness, and national security.  
**DATES:** Responses to the RFI are requested by May 7, 2025.

**ADDRESSES:** Responses should be submitted electronically to [aiinfrastructure@hq.doe.gov](mailto:aiinfrastructure@hq.doe.gov) and include “Data Center RFI Response” in the subject line of the email. Any information that may be business proprietary and exempt by law from public disclosure should be submitted as described in Section VI of this document.

**FOR FURTHER INFORMATION CONTACT:** Questions may be addressed to Neelesh

Nerurkar, Director of Infrastructure Policy in the Office of Policy, through [aiinfrastructure@hq.doe.gov](mailto:aiinfrastructure@hq.doe.gov) or by phone at (202) 586-8401 or (202) 586-2737.

**SUPPLEMENTARY INFORMATION:** DOE seeks to enable the construction of AI infrastructure at select DOE sites to begin by the end of 2025, with a target of commencing operation by the end of 2027. This RFI seeks to assess industry interest in developing, operating, and maintaining AI infrastructure on select DOE owned or managed lands, along with information on potential development approaches, technology solutions, operational models, and economic considerations associated with establishing AI infrastructure on DOE sites. In addition, this RFI seeks input from grid operators that serve DOE sites on opportunities and challenges associated with existing energy infrastructure and potential co-location of data centers with new energy generation.

DOE recognizes its relationships with Tribes and States and local governments as well as local communities, universities, businesses, utilities, and governments, contributing to economic development, education, and scientific advancement. As such, this RFI also seeks to gather input from potentially interested entities and individuals.

For the purposes of this RFI, AI infrastructure includes AI data centers, which contain specialized Information Technology (IT) equipment and associated cooling facilities, as well as their energy supply, including sources of generation, such as nuclear energy, and transmission and storage.

The Government anticipates authorizing land use rights and privileges through either a long-term Ground Lease or an Easement. The information gathered through this RFI may be considered in developing a public solicitation of private-sector proposals for AI infrastructure construction, operation, maintenance, and decommissioning on federal land.

This RFI is issued solely for information and planning purposes and does not constitute a solicitation.
